

Complex NAA™

Key Ingredients

Korean Mint
(*Agastache rugosa*)

Fig
(*Ficus carica*)

Goji Berry
(*Lycium barbarum*)

Mechanism of Action

Complex NAATM blend is a patent-pending, antioxidant-rich ingredient that offers numerous benefits to your body, both inside and out. This exclusive ingredient blend:

- 1.** Defends against damage caused by free-radicals
 - Fights free-radicals caused by environmental stressors
 - Fights urban pollution throughout the day
- 2.** Supports immune system
 - Supports normal healthy immune function
 - Provides benefits for optimal health
 - Rich with antioxidants
- 3.** Reduces the appearance of wrinkles
 - Promotes normal skin cell renewal
- 4.** Skin brightening effect
 - Brightens the look of skin
 - Helps protect skin from UV exposure during outdoor activities
 - Fights uneven skin tone and discoloration

Why is Complex NAA™ different?

- Complex NAA is a patent-pending ingredient blend featuring a special ratio and extraction method of Fig, Goji Berry and Korean Mint.
- Korean Mint, Goji Berry and Fig are traditional medicines in East Asia that help support the immune system and have age-fighting benefits.
- The three ingredients complement each other for maximum benefits.
- Complex NAA decreases MMP-1, which is a collagen degrading enzyme for improvement in skin elasticity and wrinkles.
- As a mixed extract, its daily dose is less than what you would need to take of the three ingredients independently to get the same benefits.
- Patent application (KR NO. 2017-0027152, US NO. 62/464,605)
